## Education

**High school diploma equivalent**

**Bates Technical College**

- **Diesel science & Technology program**
- **Basic Welding Knowledge program**
- **Associates degree**

## Skills & Abilities

### CERTIFICATES

- I am currently certified to adjust, repair, and diagnose air brakes; also wheel ends. Welding certified in MIG, TIG, ARC, and Oxy acetylene.

### MECHANICAL

- I have the knowledge and aptitude to perform basic and most advanced repairs. I usually have most tools in my own box up to but not including most  $\frac{3}{4}$ " sockets. I have my own air tools and most larger  $\frac{1}{4}$ " -  $\frac{1}{2}$ " sockets and lower. I also have specialty tools including a Snap-On Soleus.

### COMMUNICATION

- I do well expressing my opinion in a positive manner that does not affect others or cause issues in my work. I try my best to listen and be attentive to others opinion as well. Especially in this industry it's the best way to learn and grow ones personal knowledge.

### FABRICATION

- I have fabricated heavy duty truck frames, I have completely fabricated suspensions on travel trailers. Welded and fabricated steel and aluminum as thin as sheet metal and as thick as 1". I can for the most part fabricate anything.

### **DIESEL TECHNICIAN | LAKES TRUCK COLLISION | NOV. 2013-AUG. 2016**

- Performed all diesel truck repairs; including diagnosis, body work, suspension, and alignment, and repairing frames

### **DIESEL TECHNICIAN | NW FLEET TRUCK AND TRAILER REPAIR | SEPT. 2016-CURRENT**

- I would perform daily repairs on diesel truck and trailers. Such as body panel replacement, fabrication, head gaskets, services, and FAI inspections. Even go out on the road to diagnose and repair.
